- E. The installation of ad-hoc networking devices on university property is prohibited. Included among such devices are wireless access devices. Concern over wireless communications in the residence halls and campus is mostly about security, speed and interface among wireless access points. There is a lot of risk in using an unsecured wireless network. Using a wireless router in the residence halls has already caused users to become restricted from using the network because other students connect to their unsecured router Instead of the campus network. Any activity that an individual knows or should know is wasteful of computing resources. We so (mBT/ mb66 Td8811)51.95 o1 5e.46 .11h50ny
