

Question 5.

P owned and member managed Day Spa & Massage Therapy Company, LLC. P catered to men and women. Among other services, P offered Brazilian and bikini waxes sometimes called Sphynx, bare waxing, or Hollywood waxing. To provide these services, P hired A, an Aesthetician, who had been fully certified and licensed by the school at which A had studied and by the state in which P was located. One day, T visited P's company. T had never sought such services, but T's friends had raved about P's waxes. A met T at the service desk. T asked for a Brazilian wax. "A full or modified Brazilian?" A asked. T looked confused, and so A explained that a Full Brazilian would render T hairless from belly button to buttocks, and a FB required T would be naked from the waist down.
