Letter to the Dartmouth Community from President James Wright - May 10, 2001

- After the Trustee announcement, I met with the presidents of the CFS organizations and told them that the administration would work with their organizations in meeting these new challenges. In return, we expected each of them to contribute to the community, to be supportive of our educational mission and our community values. Specifically, I said that I expected them to take action to address allegations of conduct that was demeaning to women and others, that was racist, or that was homophobic. As a community committed to fairness, respect, and openness, we have no patience with or tolerance for bigotry or demeaning behavior. I affirm here, with deep personal conviction, that Dartmouth is and will be an actively anti-sexist, anti-racist, and anti-homophobic institution and community.
- In a community such as ours, one that depends so much upon mutual trust and respect, it is hard to understand why some want still to insist that their "right" to do what they want trumps the rights, feelings, and considerations of others. We need to recognize that speech has consequences for which we must account.
